

CityForge – Joke Book

A Spark & Anvil joke book. Groan-worthy puns, tricky riddles, silly nonsense, and real fun facts from the world of CityForge – read them out loud and make someone laugh.

Why was the architect always calm?

They knew how to handle the pressure -- and the load-bearing walls!

How to use this book

Read a joke, pause at the question, and try to guess the answer before you read on. Best of all: read them out loud to a friend, a grown-up, or your class. A good laugh makes the tricky stuff easier – that's real science.

Spark & Anvil is a 501(c)(3) public charity. Every app, story, and book is free, forever – no ads, no in-app purchases, no tracking. Released under Creative Commons BY-NC-SA 4.0 for educational reuse.

Puns

Why was the architect always calm?

💡 They knew how to handle the pressure -- and the load-bearing walls!

What did the building say to the earthquake?

💡 "You really shake me up!"

Why did the skyscraper break up with the parking garage?

💡 The relationship had too many levels!

What do you call a building that loves music?

💡 A flat!

Why did the city planner bring a pencil to the park?

💡 To draw up some green space!

What did the steel beam say to the wooden beam?

💡 "I'm stronger under pressure, but you're more flexible!"

Why was the bridge so good at making friends?

💡 It always made connections!

What did the glass window say to the brick wall?

💡 "I can see right through your issues!"

Why did the road go to therapy?

💡 It had too many breakdowns!

What do you call a city with no zoning laws?

💡 A free-for-all -- literally!

Why did the column get promoted?

💡 Because it was outstanding in its field -- and also holding up the entire roof!

What did the foundation say to the house?

💡 "I've got you covered from the ground up!"

Why was the green building so popular?

💡 It had a lot of natural appeal!

What did the concrete say during the interview?

💡 "I work well under compression!"

Why did the architect go to art school?

 To learn how to draw people in!

What did one sidewalk say to the other?

 "We should walk this path together!"

Why did the bamboo building win an award?

 It was outstanding for being both strong and sustainable!

What do you call an architect who designs underwater?

 A sub-contractor!

Why did the elevator get good grades?

 It was always on another level!

What did the roof say to the walls?

 "Without me, you'd have no ceiling on your potential!"
