

CosmosForge – Joke Book

A Spark & Anvil joke book. Groan-worthy puns, tricky riddles, silly nonsense, and real fun facts from the world of CosmosForge – read them out loud and make someone laugh.

Why did the sun go to school?

To get a little brighter!

How to use this book

Read a joke, pause at the question, and try to guess the answer before you read on. Best of all: read them out loud to a friend, a grown-up, or your class. A good laugh makes the tricky stuff easier – that's real science.

Spark & Anvil is a 501(c)(3) public charity. Every app, story, and book is free, forever – no ads, no in-app purchases, no tracking. Released under Creative Commons BY-NC-SA 4.0 for educational reuse.

Puns

Why did the sun go to school?

💡 To get a little brighter!

What kind of music do planets listen to?

💡 Neptunes!

Why did the star get an award?

💡 Because it was outstanding in its field -- of gravity!

What's a black hole's favorite game?

💡 Anything -- it sucks you in no matter what!

Why don't galaxies ever get lonely?

💡 Because they always travel in clusters!

What did the astronomer say after discovering a new nebula?

💡 "This is un-NEBULA-vable!"

Why did the comet break up with the asteroid?

💡 It needed more space!

What did Earth say to the other planets?

💡 "You guys have no life!"

Why was the red giant so embarrassing?

💡 It couldn't stop expanding at parties!

What's an astronomer's favorite key on the keyboard?

💡 The space bar!

Why did the neutron star feel so dense?

💡 Because it literally had the weight of a mountain in a teaspoon!

What did the supernova say when it exploded?

💡 "I'm going out with a BANG -- and leaving behind a stellar legacy!"

Why did the exoplanet fail its audition?

💡 It couldn't stay in the habitable zone!

What do you call a fight between two galaxies?

💡 A star war -- that takes a billion years!

Why did the light wave feel superior to the sound wave in space?

💡 Because it actually got there!

What did one pulsar say to the other?

💡 "Stop spinning -- you're making me dizzy at 716 rotations per second!"

Why did the cosmologist feel small at the party?

💡 Because the observable universe kept one-upping everyone's stories!

What did the white dwarf say after it stopped fusing?

💡 "I'm not dead, I'm just cooling off -- for the next trillion years!"

Why did the Hertzsprung-Russell diagram break up with the bar graph?

💡 It needed a relationship with more dimensions!

What did the photon say when asked if it needed luggage?

💡 "No thanks, I'm traveling light!"

Keep laughing
