

CubeSensei – Joke Book

A Spark & Anvil joke book. Groan-worthy puns, tricky riddles, silly nonsense, and real fun facts from the world of CubeSensei – read them out loud and make someone laugh.

Why did the Rubik's Cube go to therapy?

It had too many unresolved issues -- on all six sides!

How to use this book

Read a joke, pause at the question, and try to guess the answer before you read on. Best of all: read them out loud to a friend, a grown-up, or your class. A good laugh makes the tricky stuff easier – that's real science.

Spark & Anvil is a 501(c)(3) public charity. Every app, story, and book is free, forever – no ads, no in-app purchases, no tracking. Released under Creative Commons BY-NC-SA 4.0 for educational reuse.

Puns

Why did the Rubik's Cube go to therapy?

💡 It had too many unresolved issues -- on all six sides!

What did the speedcuber say after a personal best?

💡 "That was twist-ory in the making!"

Why did the algorithm refuse to change?

💡 It had a very specific set of moves and it was sticking to them!

What's a cube's favorite letter?

💡 F -- because it's always the first move!

Why did the white cross look so proud?

💡 Because it was the foundation of everything!

What did the scrambled cube say to the solver?

💡 "I'm all mixed up -- can you help me get it together?"

Why did the OLL algorithm feel overlooked?

💡 Because everyone just wanted to skip to PLL!

What do you call a cube that can solve itself?

💡 Self-centered!

Why was the Pyraminx always calm?

💡 Because it had fewer problems to face -- only four sides!

What did the F2L pair say?

💡 "We're meant to be together -- in the slot!"

Why did the Skewb feel left out?

💡 Because it doesn't turn like everybody else!

What's a speedcuber's favorite time of day?

💡 Any time under 10 seconds!

Why did the 7x7 cube take so long to get ready?

💡 It had 218 pieces to coordinate!

What did the timer say to the cuber?

💡 "Stop pressing my buttons!"

Why was the Mirror Cube so vain?

 It couldn't stop looking at its own reflection -- and its shapes keep changing!

What do cubers say when they're happy?

 "Everything just clicked into place!"

Why did the Megaminx feel important?

 Because it has 12 faces -- that's 6 more than the regular cube!

What's a cube's favorite dance move?

 The twist and shout!

Why did the color-neutral cuber feel free?

 Because they weren't stuck on one cross color!

What did the spaced repetition engine say?

 "I'll quiz you again... but not right now. I'll wait until you're about to forget!"

Keep laughing

That's **20 jokes** from CubeSensei. Made someone laugh? Try making up your own – the best jokes are the ones you tell.
