

Decodeforge — Concept Poster

Print this and pin it up — an at-a-glance map of the Decodeforge cast and the ideas each one carries. Come back to it whenever you want to remember who teaches what.

Spark & Anvil is a 501(c)(3) public charity. Every app, story, and book is free, forever — no ads, no in-app purchases, no tracking. Released under Creative Commons BY-NC-SA 4.0 for educational reuse.

Meet the cast — and what each one teaches

Character	What they carry
Segwyn	Segment & blend (mentor) — the master decoder who slides a word apart into its sounds and back together, and coaches the rest
Chip	Syllable division — chips a big word into syllable chunks you can actually say
Digby	Digraphs — fuses two letters into ONE sound (the 'one-breath' trick)
Blenda	Consonant blends — smashes a cluster together so each sound still shows
Silent Ellie	Silent / magic-e — stands silent at a word's end and makes the vowel say its name
Sylva	Vowel teams — pairs two vowels so the first does the talking
Prefa	Prefixes — clips a meaning-unit onto the FRONT of a word
Rootley	Roots / bases — holds the meaning core everything attaches to
Fixby	Suffixes — tacks a meaning-unit onto the END and guards the spelling-change rule
Fluenna	Fluency — reads the same passage until it flows, keeping the beat (repeated reading)
Mapper	Phoneme-grapheme mapping — maps each sound to its spelling tile on the board

Key ideas at a glance

The big concepts this cast helps you master:

- Phoneme-grapheme review
- Consonant blends
- Consonant digraphs

- Short vowels in closed syllables
 - Silent-e (magic-e) syllables
 - Vowel teams
 - R-controlled vowels
 - The six syllable types
 - Dividing two-syllable words
 - Decoding long words (3+ syllables)
 - Prefixes
 - Suffixes and spelling-change rules
 - Greek and Latin roots
 - Combining prefix + root + suffix
 - Fluency: accuracy, automaticity, prosody
 - Reading decodable passages + light comprehension
