

Tallytots — Concept Poster

Print this and pin it up — an at-a-glance map of the Tallytots cast and the ideas each one carries. Come back to it whenever you want to remember who teaches what.

Meet the cast — and what each one teaches

Character	What they carry
Ribbet	Mental number line / magnitude (hero) — a frog who hops the linear 1→10 lily-pad path; farther along IS more (the Ramani–Siegler core)
Dottie	Subitizing — a ladybug whose back-spots you know at a glance, without counting; instant recognition IS subitizing
Wriggle	The successor principle — a caterpillar who grows one segment when you add one and sheds one when you take one; ± 1 IS the next/previous number
Clutch	Counting / cardinality — a hen who touches each egg once as she counts; the last number IS how many in all
